Version: 28

Revision: 28.02.2017

SECTION 1: Identification of the substance/mixture and of the company/undertaking

· 1.1 Product identifier

· Trade name: Trig-a-cap Asphalt Noir Aerosol bitume

· 1.2 Relevant identified uses of the substance or mixture and uses advised against

No further relevant information available.

· Sector of Use

SU3 Industrial uses: Uses of substances as such or in preparations at industrial sites

- SU21 Consumer uses: Private households / general public / consumers
- SU22 Professional uses: Public domain (administration, education, entertainment, services, craftsmen)
- Product category PC9a Coatings and paints, thinners, paint removers

· Process category

- PROC7 Industrial spraying
- PROC11 Non industrial spraying
- \cdot Application of the substance / the mixture <code>Surface</code> protection
- \cdot 1.3 Details of the supplier of the safety data sheet
- · Manufacturer/Supplier:
- · A.M.P.E.R.E. SYSTEM
- · 3 Rue Antoine Balard P.A. du Vert Galant
- · 95310 Saint-Ouen-l'Aumône France
- · Tel: +33 1 34 64 72 72
- · Fax: +33 1 30 37 55 17
- · E-mail: fds@amperesystem.com
- 1.4 Emergency telephone number: 0344 892 0111

SECTION 2: Hazards identification

· 2.1 Classification of the substance or mixture

	Classification	according to	Regulation	(EC)	No	1272/2008
--	----------------	--------------	------------	------	----	-----------

Aerosol 1	H222-H2	29 Extremely flammable aerosol. Pressurised container: May burst if heated.
GHS	508 health haz	ard
STOT RE 1	H372	Causes damage to organs through prolonged or repeated exposure.
	100	
GHS	09 environme	nt
Aquatic Chroni	ic 2 H411	Toxic to aquatic life with long lasting effects.
GHS	507	
Eye Irrit. 2	H319	Causes serious eye irritation.
STOT SE 3	H335-H3	36 May cause respiratory irritation. May cause drowsiness or dizziness.
Asp. Tox. 1	H304	May be fatal if swallowed and enters airways.
· 2.2 Label elem		Nation (EC) No 1272/2009
		ulation (EC) No 1272/2008 labelled according to the CLP regulation.
		(Contd. on page 2)

Printing date: 28.02.2017

Version: 28

Revision: 28.02.2017

Trade name: Trig-a-cap Asphalt Noir Aerosol bitume

(Contd. of page 1)

· Signal word Danger

· Hazard-determining components of labelling:

- Hydrocarbons,C9,aromatics
- Hydrocarbon, C9-C12, n-alkanes, iso-alkenes, cyclic, aromates(2-25%)
- Hazard statements
- H222-H229 Extremely flammable aerosol. Pressurised container: May burst if heated.
- H319 Causes serious eye irritation.
- H335-H336 May cause respiratory irritation. May cause drowsiness or dizziness.
- H372 Causes damage to organs through prolonged or repeated exposure.
- H411 Toxic to aquatic life with long lasting effects.

Precautionary statements

- P101 If medical advice is needed, have product container or label at hand.
- P102 Keep out of reach of children.
- P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- P251 Do not pierce or burn, even after use.
- P260 Do not breathe spray.
- P211 Do not spray on an open flame or other ignition source.
- P280 Wear protective gloves / eye protection.
- P271 Use only outdoors or in a well-ventilated area.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

- P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- P302+P352 IF ON SKIN: Wash with plenty of soap and water.
- P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
- P403 Store in a well-ventilated place.
- P501 Dispose of contents/container in accordance with local/regional/national/international regulations.
- · Additional information:

EUH066 Repeated exposure may cause skin dryness or cracking.

Buildup of explosive mixtures possible without sufficient ventilation.

- · 2.3 Other hazards
- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.

SECTION 3: Composition/information on ingredients

· 3.2 Mixtures

• **Description:** Active substance with propellant

 • Dangerous components:
 CAS: 74-98-6

-	I]

· Additional information:

SECTION 4: First aid measures

• 4.1 Description of first aid measures

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Generally the product does not irritate the skin.
- After eye contact: Rinse opened eye for several minutes under running water.
- After swallowing: Do not induce vomiting; call for medical help immediately.
- \cdot 4.2 Most important symptoms and effects, both acute and delayed
- No further relevant information available.
- \cdot 4.3 Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

SECTION 5: Firefighting measures

• 5.1 Extinguishing media

• Suitable extinguishing agents:

- Water haze
- Fire-extinguishing powder
- Carbon dioxide
- Alcohol resistant foam
- For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture No further relevant information available.
- 5.3 Advice for firefighters
- · Protective equipment: Mount respiratory protective device.

SECTION 6: Accidental release measures

- \cdot 6.1 Personal precautions, protective equipment and emergency procedures
- Wear protective equipment. Keep unprotected persons away.
- · 6.2 Environmental precautions:
- Do not allow product to reach sewage system or any water course.

Inform respective authorities in case of seepage into water course or sewage system.

- Do not allow to enter sewers/ surface or ground water.
- · 6.3 Methods and material for containment and cleaning up:

Ensure adequate ventilation.

Printing date: 28.02.2017

Version: 28

Revision: 28.02.2017

Trade name: Trig-a-cap Asphalt Noir Aerosol bitume

	(Contd. of page 3)
Do not flush with water or aqueous cleansing agents	
• 6.4 Reference to other sections	
See Section 7 for information on safe handling.	
See Section 8 for information on personal protection equipment.	
See Section 13 for disposal information.	
SECTION 7: Handling and storage	
· 7.1 Precautions for safe handling	
Ensure good ventilation/exhaustion at the workplace.	
Open and handle receptacle with care.	
Information about fire - and explosion protection:	
Do not spray onto a naked flame or any incandescent material.	
Keep ignition sources away - Do not smoke.	
Protect against electrostatic charges.	
Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50 °C	, i.e. electric
lights. Do not pierce or burn, even after use.	
• 7.2 Conditions for safe storage, including any incompatibilities	
· Storage:	
· Requirements to be met by storerooms and receptacles:	
Store in a cool location.	
Observe official regulations on storing packagings with pressurised containers.	
· Information about storage in one common storage facility:	
Observe official regulations on storing packagings with pressurised containers.	
Further information about storage conditions:	
Keep receptacle tightly sealed.	
Do not seal receptacle gas tight.	
Store in cool, dry conditions in well sealed receptacles.	
Protect from heat and direct sunlight.	
7.3 Specific end use(s) No further relevant information available.	
SECTION 8: Exposure controls/personal protection	
• Additional information about design of technical facilities: No further data; see item 7.	
· 8.1 Control parameters

Additions	Linformation. The lists well	d during the making were used as basis

· Additional information: The lists valid during the making were used as basis.

· 8.2 Exposure controls

- · Personal protective equipment:
- · General protective and hygienic measures:

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

· Respiratory protection:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

Use suitable respiratory protective device in case of insufficient ventilation. Filter A/P2

· Protection of hands:

Protective gloves

Solvent resistant gloves

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation **Material of gloves**

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Nitrile rubber, NBR

Recommended thickness of the material: $\geq 0.5 \text{ mm}$

· Penetration time of glove material

For continuous contact we recommend gloves with breakthrough time of at least 240 minutes, with the preference given to a breakthrough time greater than 480 minutes. For short-term or splash guard we recommend the same. We are aware that suitable gloves that offer this level of protection may not be available. (Contd. on page 6)

Printing date: 28.02.2017

Version: 28

Revision: 28.02.2017

Trade name: Trig-a-cap Asphalt Noir Aerosol bitume

(Contd. of page 5)

In that case, a shorter breakthrough time are acceptable as long as the procedures governing maintenance and timely replacement are followed. The thickness of the gloves is not a good measure of the resistance of the gloves against a chemical substance, because this depends on the exact composition of the material from which the gloves are made.

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye protection:

Safety glasses

×

Tightly sealed goggles

• Body protection: Use protective suit. (EN-13034/6)

9.1 Information on basic physical and	chemical properties
General Information	
Appearance: Form:	Aerosol
Colour:	According to product specification
Odour:	Characteristic
Odour threshold:	Not determined.
pH-value:	Not determined.
Change in condition	
Melting point/freezing point:	Undetermined.
Initial boiling point and boiling rang	je: -44.5 °C
Flash point:	-97 °C
Flammability (solid, gas):	Not applicable.
Auto-ignition temperature:	Product is not selfigniting.
Explosive properties:	Product is not explosive. However, formation of explosive air/ vapour mixtures are possible.
Explosion limits:	
Lower:	0.6 Vol %
Upper:	11.5 Vol %
Vapour pressure at 20 °C:	4 bar
Density at 20 °C:	0.74 g/cm ³
Relative density	Not determined.
Vapour density	Not determined.
Evaporation rate	Not applicable.
Solubility in / Miscibility with	
water:	Not miscible or difficult to mix.
Partition coefficient: n-octanol/water:	Not determined.
Viscosity:	
Dynamic:	Not determined.
Kinematic:	Not determined.
Solvent separation test:	4 Bar
Solvent content: Organic solvents:	73.6 %
