	(Contd. of page 1)				
· Hazard-determining components of labelling:					
	9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics				
Hydrocarbons, C6-C7, n-alkanes, isoalkanes, cyclics, <5% n-hexane					
· Hazard statements					
H222-H229 Extremely flammable aerosol. Pressurised container: May burst if heated.					
H315 Caus	ses skin irritation.				
H319 Caus	ses serious eye irritation.				
H336 May	cause drowsiness or dizziness.				
H412 Harr	nful to aquatic life with long lasting effects.				
· Precautionary st	tatements				
P101	If medical advice is needed, have product container or label at hand.				
P102	Keep out of reach of children.				
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No				
	smoking.				
P211	Do not spray on an open flame or other ignition source.				
P251	Do not pierce or burn, even after use.				
P261	Avoid breathing dust/fume/gas/mist/vapours/spray.				
P273	Avoid release to the environment.				
P280	Wear protective gloves / eye protection / face protection.				
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.				
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if					
	present and easy to do. Continue rinsing.				
P312	Call a POISON CENTER/doctor if you feel unwell.				
P321	Specific treatment (see on this label). \bigcirc				
P332+P313	If skin irritation occurs: Get medical advice attention.				
P403+P233	Store in a well-ventilated place. Keep container tightly closed.				
P405	Store locked up.				
P410+P412	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.				
P501	Dispose of contents/container in accordance with local/regional/national/international				
	regulations.				
· Additional information:					
EUH208 Contains Fatty acids, C18-unsatd, trimers compds. with oleylamine, phthalic anhydride. May					
produce	e an allergic reaction.

SECTION 4: First aid measures

· 4.1 Description of first aid measures

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Generally the product does not irritate the skin.
- After eye contact: Rinse opened eye for several minutes under/running water. Then consult a doctor.
- · After swallowing: Do not induce vomiting; call for medical help immediately.
- · 4.2 Most important symptoms and effects, both acute and delayed
- No further relevant information available.
- · 4.3 Indication of any immediate medical attention and special treatment needed
- No further relevant information available,

SECTION 5: Firefighting measures

• 5.1 Extinguishing media

- · Suitable extinguishing agents:
- Water haze
- Fire-extinguishing powder
- Carbon dioxide
- Alcohol resistant foam • For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture No further relevant information available.
- 5.3 Advice for firefighters
- · Protective equipment: Mount respiratory protective device.

SECTION 6: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures
- Wear protective equipment. Keep unprotected persons away.
- · 6.2 Environmental precautions:
- Do not allow product to reach sewage system or any water course.
- Inform respective authorities in case of seepage into water course or sewage system.
- Do not allow to enter sewers/ surface or ground water.
- \cdot 6.3 Methods and material for containment and cleaning up:
- Ensure adequate ventilation.

	Do not flush with water or aqueous cleansing agents
	6.4 Reference to other sections See Section 7 for information on safe handling.
	See Section 8 for information on personal protection equipment.
	See Section 13 for disposal information.
	see section 15 for disposal information.
	SECTION 7: Handling and storage
	7.1 Precautions for safe handling
	Ensure good ventilation/exhaustion at the workplace.
	Information about fire - and explosion protection:
	Do not spray onto a naked flame or any incandescent material.
	Keep ignition sources away - Do not smoke.
	Protect against electrostatic charges.
]	Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i.e. electric
]	ights. Do not pierce or burn, even after use.
. '	7.2 Conditions for safe storage, including any incompatibilities
	Storage:
	Requirements to be met by storerooms and receptacles:
	Store in a cool location.
	Observe official regulations on storing packagings with pressurised containers.
	Information about storage in one common storage facility:
	Observe official regulations on storing packagings with pressurised containers.
	Further information about storage conditions:
	Keep receptacle tightly sealed.
	Do not seal receptacle gas tight. Store in cool, dry conditions in well sealed receptacles.
	Protect from heat and direct sunlight.
	7.3 Specific end use(s) No further relevant information available.
	SECTION 8: Exposure controls/personal protection

1113	Protective gloves
	nt resistant gloves
	tion of the glove material on consideration of the penetration times, rates of diffusion and the degradat
	rial of gloves
	election of the suitable gloves does not only depend on the material, but also on further marks of qualit aries from manufacturer to manufacturer. As the product is a preparation of several substances, the
	ance of the glove material can not be calculated in advance and has therefore to be checked prior to the
	cation.
	e rubber, NBR
	nmended thickness of the material ≥ 0.5 mm
	tration time of glove material
For co	ontinuous contact we recommend gloves with breakthrough time of at least 240 minutes, with the
	ence given to a breakthrough time greater than 480 minutes. For short-term or splash guard we
recom	mend the same. We are aware that suitable gloves that offer this level of protection may not be available
In tha	t case, a shorter breakthrough time are acceptable as long as the procedures governing maintenance an
	y replacement are followed. The thickness of the gloves is not a good measure of the resistance of the
	s against a chemical substance, because this depends on the exact composition of the material from wh
	oves are made.
	xact break trough time has to be found out by the manufacturer of the protective gloves and has to be

· Relevant phrases

- H220 Extremely flammable gas.
- H225 Highly flammable liquid and vapour.
- H226 Flammable liquid and vapour.
- H280 Contains gas under pressure; may explode if heated.
- H304 May be fatal if swallowed and enters airways.
- H312 Harmful in contact with skin.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H319 Causes serious eye irritation.
- H332 Harmful if inhaled.
- H335 May cause respiratory irritation.
- H336 May cause drowsiness or dizziness.
- H373 May cause damage to organs through prolonged or repeated exposure.
- H411 Toxic to aquatic life with long lasting effects.
