Printing date: 01.12.2022

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Revision: 01.12.2022

· 1.1 Product identifier · Trade name: GALVA PROCAT GLOSS · Article number: 635007100 / 635007101 · UFI: 0SK5-W0QJ-200U-0YFF · 1.2 Relevant identified uses of the substance or mixture and uses advised against -· Application of the substance / the mixture Aerosol coating · 1.3 Details of the supplier of the safety data sheet Manufacturer/Supplier: A.M.P.E.R.E. SYSTEM 3 rue Antoine Balard - Z.I. du Vert Galant 95310 Saint-Ouen-I'Aumône - FRANCE Tél: + 33 1 34 64 72 72 / Fax: +33 1 30 37 55 17 · Further information obtainable from: fds@amperesystem.com 1.4 Emergency telephone number: UK : National Poisons Information Service - 0344 892 0111 / Ireland : National Poisons Information Centre - Beaumont Hospital - PO Box 1297 Beaumont Road 9 Dublin : +353 1 809 2566 (Healthcare professionals-24/7) - +353 1 809 2166 (public, 8am - 10pm, 7/7). **SECTION 2: Hazards identification** · 2.1 Classification of the substance or mixture · Classification according to Regulation (EC) No 1272/2008 GHS02 flame Aerosol 1 H222-H229 Extremely flammable aerosol. Pressurised container: May burst if heated. GHS09 environment Aquatic Chronic 2 H411 Toxic to aquatic life with long lasting effects. GHS07 Eye Irrit. 2 H319 Causes serious eye irritation. STOT SE 3 H336 May cause drowsiness or dizziness. · 2.2 Label elements · Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the GB CLP regulation. · Hazard pictograms GHS02 GHS07 GHS09 · Signal word Danger · Hazard-determining components of labelling: Acetone Hydrocarbons,C9,aromatics butanol (Contd. on page 2)

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date: 01.12.2022

Version: 15 (replaces version 14)

Revision: 01.12.2022

Trade name: GALVA PROCAT GLOSS - 635007100 / 635007101

	(Contd. of page 1)
• Hazard stat	
H222-H229	Extremely flammable aerosol. Pressurised container: May burst if heated.
H319	Causes serious eye irritation.
H336	May cause drowsiness or dizziness.
H411	Toxic to aquatic life with long lasting effects.
· Precautiona	iry statements
P101	If medical advice is needed, have product container or label at hand.
P102	Keep out of reach of children.
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P211	Do not spray on an open flame or other ignition source.
P251	Do not pierce or burn, even after use.
P260	Do not breathe mist/vapours/spray.
P271	Use only outdoors or in a well-ventilated area.
P273	Avoid release to the environment.
P280	Wear protective gloves / eye protection.
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+	+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if
	present and easy to do. Continue rinsing.
P403	Store in a well-ventilated place.
P410+P412	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.
· Additional i	information:
EUH066 Rep	peated exposure may cause skin dryness or cracking.
· 2.3 Other ha	azards
· Results of P	BT and vPvB assessment
• PBT: Not ap	oplicable.
• vPvB: Not a	

SECTION 3: Composition/information on ingredients

· 3.2 Mixtures

· Description: Active substance with propellant

· Dangerous components:

· Additional information:

Aerosols and containers fitted with a solid atomizer containing substances or mixtures classified as hazardous by aspiration shall not be labelled for that hazard.

The text of the hazard statements mentioned here can be found in chapter 16.

SECTION 4: First aid measures

· 4.1 Description of first aid measures

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: Generally the product does not irritate the skin.
- · After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

· After swallowing: Do not induce vomiting; call for medical help immediately.

· 4.2 Most important symptoms and effects, both acute and delayed

No further relevant information available.

• 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media

• Suitable extinguishing agents:

Water haze

Fire-extinguishing powder

Carbon dioxide

Alcohol resistant foam

· For safety reasons unsuitable extinguishing agents: Water with full jet

• 5.2 Special hazards arising from the substance or mixture No further relevant information available.

• 5.3 Advice for firefighters

• Protective equipment: Mount respiratory protective device.

SECTION 6: Accidental release measures

· 6.1 Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

6.2 Environmental precautions: Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers/ surface or ground water.
6.3 Methods and material for containment and cleaning up: Ensure adequate ventilation.

Do not flush with water or aqueous cleansing agents

6.4 Reference to other sections
 See Section 7 for information on safe handling.
 See Section 8 for information on personal protection equipment.

(Contd. on page 4)

Printing date: 01.12.2022

Version: 15 (replaces version 14)

Revision: 01.12.2022

Trade name: GALVA PROCAT GLOSS - 635007100 / 635007101

See Section 13 for disposal information.

SECTION 7: Handling and storage

- •7.1 Precautions for safe handling Ensure good ventilation/exhaustion at the workplace.
- · Information about fire and explosion protection:
- Do not spray onto a naked flame or any incandescent material.
- Keep ignition sources away Do not smoke.
- Protect against electrostatic charges.
- Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e. electric lights. Do not pierce or burn, even after use.

• 7.2 Conditions for safe storage, including any incompatibilities

- Storage:
- Requirements to be met by storerooms and receptacles: Store in a cool location.
- Observe official regulations on storing packagings with pressurised containers.
- · Information about storage in one common storage facility:
- Observe official regulations on storing packagings with pressurised containers.
- \cdot Further information about storage conditions:
- Store in cool, dry conditions in well sealed receptacles.
- Protect from heat and direct sunlight.
- · 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

· 8.1 Control parameters

·Ingree	dients with limit values that rea	quire monitoring at the workplace:

Revision: 01.12.2022

Trade name: GALVA PROCAT GLOSS - 635007100 / 635007101

(Contd. of page 5) Do not inhale gases / fumes / aerosols. Avoid contact with the eyes. Avoid contact with the eyes and skin. General ventilation **Respiratory protection:** Use suitable respiratory protective device in case of insufficient ventilation. Filter A2/P2 · Hand protection Protective gloves Solvent resistant gloves Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Nitrile rubber, NBR Recommended thickness of the material: $\geq 0.5 \text{ mm}$ Penetration time of glove material For continuous contact we recommend gloves with breakthrough time of at least 240 minutes, with the preference given to a breakthrough time greater than 480 minutes. For short-term or splash guard we recommend the same. We are aware that suitable gloves that offer this level of protection may not be available. In that case, a shorter breakthrough time are acceptable as long as the procedures governing maintenance and timely replacement are followed. The thickness of the gloves is not a good measure of the resistance of the gloves against a chemical substance, because this depends on the exact composition of the material from which the gloves are made. The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. **Eye/face protection** Safety glasses Tightly sealed goggles · Body protection: Use protective suit. (EN-13034/6) Full skin covering antistatic, chemical and oil resistant clothing and safety shoes are recommended. (EN1149; EN340&EN ISO 13688; EN13034-6).

• Environmental exposure controls Use a suitable container to prevent environmental contamination.

9.1 Information on basic physical and ch	nemical properties
General Information	
Physical state	Aerosol
Colour:	According to product specification
Odour:	Characteristic
Odour threshold:	Not determined.
Melting point/freezing point:	Undetermined.
Boiling point or initial boiling point and	boiling
range	-44.5 °C
Flammability	Not applicable.

Safety data sheet according to 1907/2006/EC, Article 31

Printing date: 01.12.2022

Version: 15 (replaces version 14)

Revision: 01.12.2022

.

Trade name: GALVA PROCAT GLOSS - 635007100 / 635007101

	(Contd. of page 11)
· Regulation (EC) No 273/2004 on drug precursors	
67-64-1 Acetone	3
• Regulation (EC) No 111/2005 laying down rules for the monitoring of trade between the and third countries in drug precursors	Community
67-64-1 Acetone	3
· National regulations:	

· Breakdown regulations:

Class	Share in %
3 117	75 100

75-<100 NK

· VOC-CH 90.31 %

· VOC-EU ~746.0 g/l

· Danish MAL Code 5-3

• 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Relevant phrases

- Extremely flammable gas. H220
- H225 Highly flammable liquid and vapour.
- Flammable liquid and vapour. H226
- H280 Contains gas under pressure; may explode if heated.
- Harmful if swallowed. H302
- H304 May be fatal if swallowed and enters airways.
- H315 Causes skin irritation.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H335 May cause respiratory irritation.
- H336 May cause drowsiness or dizziness.
- H400 Very toxic to aquatic life.
- H410 Very toxic to aquatic life with long lasting effects.
- H411 Toxic to aquatic life with long lasting effects.

EUH066 Repeated exposure may cause skin dryness or cracking.

· Classification according to Regulation (EC) No 1272/2008

Physical and chemical properties: The classification is based on the results of the mixtures tested. Health hazards, Environmental hazards: The method of classification of mixtures based on the constituents of the mixture (sum formula).

- · Date of previous version: 24.11.2022
- Version number of previous version: 14
- Abbreviations and acronyms:

ADR: Accord relatif au transport international des marchandises dangereuses par route (European Agreement Concerning the International Carriage of Dangerous Goods by Road)

- IMDG: International Maritime Code for Dangerous Goods
- IATA: International Air Transport Association

GHS: Globally Harmonised System of Classification and Labelling of Chemicals

- EINECS: European Inventory of Existing Commercial Chemical Substances
- ELINCS: European List of Notified Chemical Substances
- CAS: Chemical Abstracts Service (division of the American Chemical Society)

MAL-Code: Måleteknisk Arbejdshygiejnisk Luftbehov (Regulation for the labeling concerning inhalation hazards, Denmark)

- DNEL: Derived No-Effect Level (UK REACH)
- PNEC: Predicted No-Effect Concentration (UK REACH)
- LC50: Lethal concentration, 50 percent LD50: Lethal dose, 50 percent
- PBT: Persistent, Bioaccumulative and Toxic
- vPvB: very Persistent and very Bioaccumulative

Flam. Gas 1A: Flammable gases - Category 1A
